

IFRS AT A GLANCE
IAS 12 *Income Taxes*

IAS 12 Income Taxes

(R) AMENDMENTS AND STANDARDS ISSUED BUT NOT YET EFFECTIVE

This IFRS Accounting Standard includes amendments that were issued as at 31 December 2022, but were not yet mandatorily effective. These are identified with an '(R)' suffix. For details of these amendments, please refer to BDO's [IFRB 2021/10](#).

CURRENT TAX

- ▶ Recognise liability for unsettled portion of tax expense
- ▶ Recognise an asset to the extent amounts paid exceed amounts due
- ▶ Tax loss which can be used against future taxable income can be recognised as an asset (deferred tax asset).

CURRENT TAX MEASUREMENT

Measure the asset/liability using the tax rates that are enacted or substantially enacted at the reporting date.

REBUTTABLE PRESUMPTION - FOR INVESTMENT PROPERTY AT FAIR VALUE UNDER IAS 40

Presumption - for investment properties at fair value, deferred tax is calculated assuming the recovery of the carrying amount of the investment property, will ultimately be entirely through sale - regardless of whether this is actually managements intention or not.

Presumption is rebutted and the carrying amount will ultimately be recovered through use over the life of the asset rather than sale:

If the asset is depreciable; and

The asset is held in order to consume the assets benefits over the life of the asset.

Land - land is not depreciable and therefore the recovery of land is always through sale.

DEFINITIONS - TEMPORARY DIFFERENCE AND TAX BASE

Temporary difference: Difference between the carrying amount of an asset/liability and its tax base.

Tax base of an asset

- ▶ Is the amount that will be deductible for tax purposes against any taxable economic benefits that will flow to the entity when it recovers the carrying amount of the asset
- ▶ If those economic benefits will not be taxable, the tax base of the asset is equal to its carrying amount.

Tax base of a liability

Is its carrying amount Less any amount that will be deductible for tax purposes in respect of the liability in future periods.

Tax base of income received in advance

- ▶ Is its carrying amount
- ▶ Less any revenue that will not be taxable in the future.

TEMPORARY DIFFERENCES

Taxable temporary differences will result in taxable amounts in future when the carrying amount of an asset is recovered or liability is settled.

Deductible temporary differences will result in deductible amounts in future when the carrying amount of an asset is recovered or a liability is settled.

DEFERRED TAX

Deferred tax liabilities

Recognise liabilities for all taxable temporary differences, except to the extent it arises from:

- ▶ Initial recognition of goodwill; or
- ▶ Initial recognition of an asset/liability that does not affect accounting or taxable profit, the transaction is not a business combination and at the time of the transaction, does not give rise to equal taxable and deductible temporary differences (R).
- ▶ Liabilities from undistributed profits from investments in subsidiaries, branches and associates, and interests in joint ventures where company can control the timing of the reversal.

Deferred tax assets

Recognise for deductible temporary differences, unused tax losses, unused tax credits to the extent that taxable profit will be available against which the asset can be used, except to the extent it arises from the initial recognition of an asset/liability that:

- ▶ Is not a business combination;
- ▶ does not affect accounting/taxable profit; and
- ▶ does not give rise to equal taxable and deductible temporary differences (R).

A deferred tax asset is recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable the temporary difference will reverse in the foreseeable future and there will be available tax profit to be utilised.

A deferred tax asset is recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profits will be available (i.e. the entity has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profits will be available against which the unused tax losses or unused tax credits can be utilised).

DEFERRED TAX - MEASUREMENT

- ▶ Measure the balance at tax rates that are expected to apply in the period in which the asset is realised or liability settled based on tax rates that have been enacted or substantially enacted by the end of the reporting period
- ▶ Deferred tax assets and liabilities are not discounted
- ▶ The applicable tax rate depends on how the carrying amount of an asset or liability is recovered or settled
- ▶ Current and deferred tax shall be recognised as income or an expense and included in profit or loss for the period, except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different period, directly in equity or other comprehensive income, or a business combination
- ▶ Current tax and deferred tax are charged or credited directly to equity or other comprehensive income if the tax relates to items that are credited or charged, in the same or a different period, directly to equity or other comprehensive income.

This publication has been carefully prepared, but it has been written in general terms and should be seen as broad guidance only. The publication cannot be relied upon to cover specific situations and you should not act, or refrain from acting, upon the information contained therein without obtaining specific professional advice. Neither BDO IFR Advisory Limited, and/or any other entity of BDO network, nor their respective partners, employees and/or agents accept or assume any liability or duty of care for any loss arising from any action taken or not taken by anyone in reliance on the information in this publication or for any decision based on it.

The BDO network (referred to as the 'BDO network' or the 'Network') is an international network of independent public accounting, tax and advisory firms which are members of BDO International Limited and perform professional services under the name and style of BDO (hereafter 'BDO member firms'). BDO International Limited is a UK company limited by guarantee. It is the governing entity of the BDO network.

Service provision within the BDO network in connection with corporate reporting and IFRS Accounting Standards (comprising International Financial Reporting Standards, International Accounting Standards, and Interpretations developed by the IFRS Interpretations Committee and the former Standing Interpretations Committee), and other documents, as issued by the International Accounting Standards Board and IFRS Sustainability Disclosure Standards as issued by the International Sustainability Standards Board, is provided by BDO IFR Advisory Limited, a UK registered company limited by guarantee. Service provision within the BDO network is coordinated by Brussels Worldwide Services BV, a limited liability company incorporated in Belgium.

Each of BDO International Limited, Brussels Worldwide Services BV, BDO IFR Advisory Limited and the BDO member firms is a separate legal entity and has no liability for another entity's acts or omissions. Nothing in the arrangements or rules of the BDO network shall constitute or imply an agency relationship or a partnership between BDO International Limited, Brussels Worldwide Services BV, BDO IFR Advisory Limited and/or the BDO member firms. Neither BDO International Limited nor any other central entities of the BDO network provide services to clients.

BDO is the brand name for the BDO network and for each of the BDO member firms.
